EDUCATION

ABV Indian Institute of Information Technology & Management, Gwalior <i>Integrated B.Tech. in Information Technology + MBA</i>	2024 – 2029 CGPA: 8.66 / 10.0
Kendriya Vidyalaya (CBSE) <i>Senior Secondary School (Class XII)</i>	Percentage: 94.6%

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Python, Go, C++, SQL, HTML5, CSS3, Swift, Dart
Frontend & Mobile Applications: React.js, Next.js, Vite, Tailwind CSS, Responsive Web Design, State Management, Figma
Backend & APIs: Node.js, Express.js, RESTful APIs, WebSockets, Third-Party Integrations, RBAC Auth
Databases & Data Engineering: PostgreSQL, Supabase (RLS), MongoDB, Firebase, AWS, Azure, Prometheus
Software Development & AI: Full-Stack Engineering, Cloud-Native, Containerization (Flatcar), Gemini API, Git/GitHub, CI/CD

EXPERIENCE & LEADERSHIP

Open Source Contributor <i>Flatcar Container Linux, Apple Swift & Google Dart Ecosystems</i>	2025 – Present GitHub
- Contributed to production codebases, upholding rigorous software development and multi-repo review standards. - Refactored Go and React subsystems to optimize cloud-native toolchains and containerized runtime environments. - Profiled and optimized PostgreSQL queries, improving index traversal and maintaining transactional consistency.	
Freelance Full-Stack Engineer & Designer <i>Independent Contractor</i>	2026 Remote
- Delivered full-stack engineering solutions for responsive web and mobile applications using React, Node.js, and SQL. - Implemented data engineering pipelines and interactive dashboards for tracking operational metrics and performance. - Enhanced user experience (UX) by translating product requirements into intuitive interfaces via Figma and Canva AI.	
Design Head <i>ABV Indian Institute of Information Technology & Management</i>	2024 – Present Gwalior, India
- Led a 12-member design team for 4 flagship summits, delivering complete visual identity, UI assets, and media. - Managed cross-functional task allocation, ensuring seamless user experience across digital and physical touchpoints.	
Head – Rotaract Club <i>Social Welfare & Community Outreach</i>	2024 – Present Gwalior, India
- Directed Humans of Gwalior, profiling grassroots community leaders and environmental changemakers. - Spearheaded community sustainability initiatives and circular economy awareness drives across partner organizations.	

PROJECTS

Rabbit Base <i>Full-Stack AI Platform React, Vite, Supabase, Gemini API</i>
- Engineered an open-source command hub with custom UI/HUD, optimizing user experience for 20+ active users. - Architected a Supabase PostgreSQL backend enforcing strict Row-Level Security (RLS) policies for data isolation. - Integrated Gemini API to automate technical analysis and contribution roadmap generation from repository URLs.
GetMySeat <i>Full-Stack Ticketing Platform React, Node.js, Express, MongoDB, Gemini API</i>
- Built an end-to-end booking platform with RBAC authentication, atomic reservations, and dynamic seat mapping. - Engineered secure RESTful APIs with Razorpay integration, preventing double-booking under concurrent requests. - Integrated Gemini AI to deliver contextual movie recommendations based on user budget and mood preferences.
Google Lite <i>High-Performance Search Engine JavaScript, Chrome APIs, Algorithms</i>
- Engineered a custom inverted indexing engine to parse, tokenize, and rank queries with sub-second latency. - Architected a lightweight Chrome extension leveraging client-side caching to minimize DOM rendering overhead. - Optimized query parsing algorithms for high-throughput index traversal and minimal memory consumption.

ACHIEVEMENTS

- Served as **Technical / Coding Club Lead**, mentoring 100+ students in Algorithms and software development workflows.
- Solved **150+** Data Structures and Algorithms problems across LeetCode and competitive programming platforms.
- Earned certified credentials in **Google Analytics** and **Fundamentals of Digital Marketing** via Google Skillshop.
- Earned official Canva certifications in **AI Skills for Students** and **Marketing with Canva** for AI workflows.
